Admirable Invention!
JUST RECEIVED,
ANOTHER LARGE LOT OF
PATENT SELF HEATING
SMOOTHING IRONS!

MANY important improvements have been made since the beginning of the present century, relieving and facilitating the labor of men by machinery and other modern implements, but females have been nearly neglected until the introduction of the Patent Self Heating Smoothing Iron, which will relieve them, in a very great degree, from the excessive and fatiguing labor of Ironing, besides being a great saving of time and expense. This Iron combines economy, convenience, saving of labor, and despatch—one cent's worth of dry charcoal supplies fuel for a whole day's constant ironing. Hard wood coal from the stove will answer the same purpose. It can be used in any room or in the open air. Hatters' and Tailors' Irons are constructed upon the same principle, and possess equal superiority.

MATTERS TO BE GOVERNED.—We have formerly alluded to the unfavorable relation upon the moral questions of the day, occupied by the Know-Nothings in one or two of the Northern States—New York, for instance—and the probable decline in the strength of the order, in those localities, in consequence. Subsequent events have shown that the anticipation was well-grounded, in the case of New York, at least. In that State, the order was, to a large extent, filled up, and controlled by the old hunker, pro slavery politicians, and the opponents of a prohibitory liquor law. The influence of the order was in opposition to the moral sentiment of the people on these material points, and the natural effect followed, of a defeat in the State election, and a rapid losing of the ground the had previously held in the town and city elections this spring. This shows, that however popular may be the principle of restricting foreign suffrage within narrower limits, the order cannot flourish at the north, if its as a or its influence are placed in opposition to freedom and temperance. By so doing, the order, in some quarters, is putting a club into the hands of its enemies, wherewith to beat out its brains. It can never stand on a platform of Junkerism; for in that position it has not only to encounter the opposition of a large class who abuse all secret societies, but also the political sentiments of a majority of the people—and its downfall would be certain and swift. The order in this State has taken high moral ground, and presented and supported candidates who were unexceptionable to the people in this respect. From all the indications that are given, we believe its influence will continue in this direction; and so long as it does, we shall not be among the number of those who assail it merely for its secrecy.

But Know-Nothingism in New York, in Virginia, and throughout the South, is very different, in these respects, from Know-Nothingism in Maine and other Northern States. The order has the same radical differences as existed in the National Whig and Democratic parties, and we apprehend will find it as difficult, as a consequence, to act harmoniously in a national election. The questions of slavery and of temperance cannot be ignored in future elections; and the people of the North will abandon all political organizations which undertake to ignore them, or to nullify or crush out Northern sentiment in regard to them. It is this feeling which has overthrown the "nationalism" of the old parties, and will overthrow the same kind of nationalism in new ones. There are great questions to be settled between slavery and freedom; and the North will not vainly throw away the fruits of last year's victorious campaign, nor again yield to "compromisers" the strength it has just acquired in the National councils. The "American" order, if it would maintain its influence, must, therefore, assume and maintain the position, that *freedom* is one of the foremost of American principles—as our constitution assumes it to be—and if the South refuses to abide by this principle, then the order at the North must maintain it alone, and assist to carry it out by Northern majorities.

Mr Joseph Hiss, a member of the Nunnery Investigation Committee of the Massachusetts Legislature, is saddled with most of the charges preferred against that committee, and is having a pretty hard time of it. What with the comments of the newspapers, and the investigations instituted in the House, he is decidedly in hot water.

It seems that when the committee were at Lowell, the gentleman had the solace of female society, and that by some mistake the entire hotel expenses of the party were charged to the State. Mr H., however, is alone responsible for his own actions—and not the government or dominant party of Massachusetts. The House went into secret session on the evidence elicited by a committee of investigation.

A SHOPLIFTER CAUGHT.—Saturday morning, Officer Luce, assisted by [illegible] officer Walker, searched the premises of Mrs Mary Hall[oran] of Veazie, and found thereon a large lot of stolen goods, among which were silks, delaines, debeges, and in fact, almost a sufficient variety of articles to set up a small dry goods store—some of the things were found in a field adjoining, hid under piles of brush and rubbish. Many of the goods were identified by dealers on Main street, even before they were aware of their loss.

A horse attached to a chaise belonging to John T. Strickland, yesterday ran from near the old Post Office across Franklin bridge, down Harlow and Exchange streets and up York street into French street, and brought up in a stable, without any harm except inflicting a slight injury upon a pig which stood in his way. Franklin bridge was rendered impassable to ordinary teams, by ladders, planks, &c., strung across it, but these were no impediments to him.

LIQUOR SEIZURES.—City Marshal Weaver and assistants searched the premises of Stephen Doherty, on Exchange street, yesterday, and seized a quantity of intoxicating liquor. The same officer also searched the premises of Joseph Burke, on Cumberland street, with a like result.

The Kimball house, so called, near the foot of Hancock street, was sold at auction, yesterday, at $1800. Joseph Nickerson, Esq., was the purchaser.

UP-RIVER NAVIGATION.—The steamboats commenced running on the Penobscot river on Wednesday last. They are advertised, in another column, to run in connection with the railroad from Oldtown.

Under the bounty land act of March 3, 1855, the first claim was presented to the Pension about the 10th ultimo, and up to this date eighty-one thousand seven hundred applications have been received.

THE TEACHER'S LAST LESSON. A Memoir of Martha Whiting, late of Charlestown Female Seminary. By Catharine N. Badger, an Assistant Teacher. Boston: Gould & Lincoln 1855.

The life of Miss Whiting, (a faithful, self-denying teacher,) is written, as the author informs us, not to record peculiar incident, or to narrate the circumstances rendered remarkable by achievements which the world would call brilliant, but to recognize the hand of God in leading one of his chosen people to effect a tribute of respect and affection to the memory of a friend, and to furnish a numerous class a souvenir of one whose name at once to them as a teacher they love to remember." The Memoir is ably written.

For sale by E. F. Duren.

There is a small freshet on the Merrimack and other rivers in Massachusetts and Connecticut. We have not yet had sufficient rain in this quarter to affect the rivers to any great degree.

A few days since, Patrick Wall Esq., purchased the Eaton estate on York street, and we now understand he has sold it to the Roman Catholics for a Church lot.

WHITEHOUSE'S NEW ENGLAND BARDS. It will be seen by reference to the advertising columns of this paper, that this excellent Concert Troupe will give their second concert at the City Hall this (Thursday) evening. From the very flattering terms in which the Bards are spoken of by those who attended their former concert, we have no doubt that they will get a "full house." Well, they deserve it, for better singers are rarely found than those of this company, and we can assure our readers that all who attend cannot fail to be delighted with the beautiful and tasteful manner in which Whitehouse renders his sparkling songs and pathetic ballads.

THE LAW'S DELAY.—A colloquy [illegible] happened yesterday in the Supreme Court. Judge Shaw was on the bench, and at the commencement of the cases, number one was the first called, but it appeared that it was not ready for trial. Upon this, the Judge arose and stated that he himself was counsel, had entered that suit long before he became a Judge. When it is considered that he has been on the bench upwards of twenty years, the case in question may well be considered a parallel to Dickens's Jarndyce vs Jarndyce.—*Boston Times* 17th.

The Van Buren Intelligencer of March 20th says it has been mathematically proved and practically demonstrated that the Arkansas river is no more fit for navigation. The banks have fallen in to such an extent as to widen the bed of the river [illegible], requiring a larger body of water than comes down in ordinary rises to furnish its thirsty bars and to fill up the bed. The only dependence now is the railroad.

MEXICAN NEWS.—The last news from the city of Mexico, to the 6th inst., is as contradictory as ever. We first see it reported that General Alvarez had been met and defeated by the Government troops at Cajones. His army was completely annihilated, and he was forced to save himself by flight. All his cannon, arms, and camp equipage were captured. *Per contra*, we have no particulars of several defeats of the government troops by the revolutionists. Alvarez is said to be growing stronger and stronger, and is extending his operations. A correspondent of the New Orleans Bee, writing from Mexico, April 5th, says:

"The revolution hastens slowly. At the Capital unlike most cities, the revolutionary movement proceeds entirely from the 'ins' warfare. Some two years ago Arista, without serious expenditure any serious reverses, was compelled to abandon office and fly from the capital. It is here that insurrections flourish in this country. A mere's plan is to harass Santa Anna's troops, to defeat them in squads to separate them but not to engage decisive battles, not to attack large towns nor to march against the city of Mexico. This plan, though slow, has already affected serious results. Santa Anna's soldiers in the interior, reduced to half their original number, are almost disbanded, and the leaders are discouraged. Col. Echegaray in the report addressed to the Commandant General of Guanajuato, says that this war is without the slightest aspect of glory.—When the insurgents are numerically weak, they fly and establish themselves at a different point; when strong, they fall upon and beat the government troops. This is a faithful picture of the harassing tactics observed by the rebels."

COOLIES IN THE WEST INDIES. The Journal of Commerce states that the English capitalists who have had in charge the project for the introduction of six thousand coolies from China into Cuba, are now fitting out a vessel from New York to China under a contract for twelve hundred and fifty Coolies. The Journal of Commerce says:

"They will be landed at Panama, cross the Isthmus upon the railroad, and be reshipped at Aspinwall for Cuba. What the expense of the voyage will be, we cannot state precisely; but it cost the Railroad Co $150 per head for laborers from China to Panama, we estimate the expense of each emigrant to Cuba at $125 or $130. The French government, or a company under the sanction of that government, are negotiating also for a supply of labor from the same quarter, for the French West Indies, so that a large number of the Celestials will have a fair chance of a home on this side of the globe."

A NEW PROGRAMME.—A Paris correspondent of the National Intelligencer says that Louis Napoleon, if he is not anxious for a war with the United States, yet he will not avoid one, even with the Eastern war on his hands, and adds that he has three great objects at his heart, and if his life is spared he will attempt them all. The first, most important, and dearest to him, is the invasion and conquest of England; the second, the extension of the French boundaries to the Rhine, and the third, the acquisition of Belgium. The correspondent says that the only question in regard to the war with England is the naval resources of France. The great difficulty in the Emperor's mind has been cleared away by the absolute destruction of so large a portion of the best part of the British army in the Crimea, which has led to the apparent weakness of Great Britain as a military nation, has led him to believe the conquest of Britain an easy matter. The correspondent says these things are freely talked of in Paris, and yet the Emperor and Empress are the guests of England's monarch the present week.

OUR SPANISH RELATIONS.—The Evening Post says it has been credibly informed that "very soon after the intelligence of the assault made by a Spanish cruiser upon the El Dorado reached Washington, Mr Marcy had an interview with the Spanish Minister, which resulted in an immediate and unconditional admission by the latter that his government had been guilty of a trespass upon our commerce, and a promise to send instructions at once to Governor Concha, to see that hereafter no vessel sailing under the American flag, however suspicious it may appear, shall be fired at or brought to, unless within three marine leagues of the shore, which is the extent of marine jurisdiction conceded to all nations having marine frontiers. Such concessions were certainly made, as we learn by the Spanish Minister, and his instructions in accordance with them are already, we presume, in the hands of General Concha."

In this view of the case the Post pertinently enquires, why the Union keeps up such a clatter about the "El Dorado outrage."

A BOLD STROKE.—The New Bedford Mercury, a few days since, mentioned the sale of ship Fortuneer, at New York for $30,000. It now appears that the purchaser, who was an entire stranger to the owners, paid for the ship in advance two spurious ten thousand dollar drafts, the remaining $10,000 to be paid on the delivery of the vessel and in the meantime borrowed of them fifty dollars to defray an unexpected contingency of personal expenditure.—He has now suddenly disappeared, and the obliging owners are lost their fifty dollars as well as the purchaser.

It is announced in the N. Y. Sunday Atlas, that C. Edward Lester is the man who is writing the life of James Gordon Bennett. *Par nobile fratrum*. A pretty pair of 'em to be sure! We suggest the sub-title of the new book will be "The Glory and Shame of—the New York Herald." A truthful theme, especially the "shame" department.

CATHOLIC CHURCH IN BANGOR.—We learn that the lot at the corner of Broadway and Somerset street, purchased a year or two since as the site of a small stone Church or cathedral has been resold by the Bishop of the Diocese, for the sum of $ 00 it was bought for $300. We understand that the building of the church, in some other location, will be commenced at an early day.—*Mercury*.

THE ARCTIC EXPEDITION. The beautiful little clipper bark Release, fitting up for the Arctic search of Dr Kane and his companions, is now in the United States naval dry dock, Brooklyn. She has had new planking, two and a half inches thick put over the old to give her more strength, and will be covered with boiler iron to prevent the ice cutting through it.—The workmen are now lining the ceiling with cork, which is intended to absorb moisture and prevent sweat. The forward hurricane house is improved of enlargement for the accommodation of the crew. Here they will be quartered until the weather becomes so cold in the Arctic region as to force them to go between decks.—The after hurricane house will be slightly altered for the use of the officers. A new mainmast and bowsprit, have also been put into the bark.—*State of Maine*.

The sale of a portion of Daniel Webster's Marshfield property took place at the old homestead on the 28th of March. Real estate amounting to sixteen thousand seven hundred dollars was sold. The same property cost originally over eighteen thousand. A lot of cattle and sheep were disposed of, which produced the sum of two thousand one hundred dollars. Mr Webster's affairs were left in a state of great embarrassment, but his friends expect, we believe, to be able to save the family some three or four hundred acres of the estate, including the old "mansion." At the time of his decease, Mr Webster owed the sum of one hundred and forty thousand dollars, we [illegible].

Premiums to Farmers.

We publish below a circular which has just been issued by the Secretary of the State Agricultural Society. The premiums offered are calculated to arouse an ambition among our farmers, and lead to an honorable rivalry, in which the competitors will be mutually benefited.

To the several Members of the Executive Committee, and the Vice Presidents of the Maine Agricultural Society, and to the friends of Agriculture throughout the State:

GENTLEMEN:—At a meeting of the Maine State Agricultural Society, which was organized on the 4th inst., at the State House, it was voted to hold a Cattle Show and Fair sometime during September next. Messrs Fales of Paris, Goodale of Saco, and Fairbanks of Augusta were chosen a committee to apportion the amounts of money to be offered for premiums in the several departments at said Show.

This committee reported the following schedule of apportionment:

Subjects for Premiums.

Neat Stock $800; Horses 400; Sheep 100; Swine 50; Poultry 20; Grains and Grain Crops 250; Root Crops 150; Fruit and Flowers 150; Dairy Products, Honey and Hives 100; Bread 10; Sugar and Honey 20; Manufactures 100; Agricultural Implements 75; Carriages and Harnesses 75; Machinery, *Diplomas*, Wares—Copper, Tin, Iron and Pottery 20; Boots, Shoes and Leather 20; Coopers' Work 15; Furniture, *Diplomas*, Stoves 25; Hats, Caps &c. 10; Paper, Printing and Binding 12; Silver Ware and Cutlery 10; Clothing 20; Millinery 10; Plowing Spading and Digging 75; Essays 50; Plans of Farm Buildings 20; Miscellaneous 100; total amount of premiums; $2637.

Prospective Premiums.

General Farm Improvements, 1856, $100; Plot and Vegetable Gardens, 1856, 100; Improvements of Orchards, new and old, 1860, 100; On Underdraining, 18–8, 100; Reclaiming Bog Lands, 1860, 100; Best Nurseries, 1860 100; Experiments in Fattening Stock, 1858, 100; Experiments in making Composts, 1856, 100; Experiments in cultivating the Cranberry, 1860, 100; Cultivating Forest Trees and Timber, 1860, 100; total $1000.

Your Committee would recommend that the premiums offered be few and large, and that they be on the best conducted experiments rather than on the largest specimens. Also that it be recommended that diplomas be offered for all suitable objects, instead of money.

DARIUS FORBES, Chairman.

Premiums to girls under eighteen years of age, on making bread, butter and cheese, and boys for teaming and training cattle and horses, and other agricultural operations.

Messrs S. P. Benson of Winthrop, N. Foster of Gardiner, J. Percival of Waterville, and E. W. Briston of Winslow, were chosen a business committee to assist the Secretary in making arrangements for the show, in making out a list of premiums in detail, and in such other matters as might be necessary.

On motion of Mr Forbes of Paris, it was also voted that the several members of the executive committee, and the several Vice Presidents* be each a committee to enlist members in their respective districts, and to communicate to the Secretary the names of persons suitable to be placed upon the adjudging committee, to award premiums at the Show and Fair.

It was further voted that $400 out of the $600 appropriated by the State for the encouragement of the growing of flax, and placed at the disposal of the State Society, be distributed equally to each of the incorporated County Agricultural Societies, to be by them used in their respective limits in such way and manner as they may deem best suited to attain the end desired.

There are twenty-four incorporated Agricultural Societies among which the money must be divided. Will their members of the State Society & executive committee, and the trustees or executive officers of each society, attend to this matter, and make such disposal of money apportioned them, by way of premiums or otherwise most advisable to carry out the designs of the act?

As it is desirable to publish the list of premiums soon, the Secretary will be greatly obliged for any advice and suggestions in regard to it which the business committee, or others who feel interested, may please to give him at an early a day as possible.

The late Act, prescribing the powers and duties of Agricultural Societies, requires that blanks, containing questions for the consideration of the various premiums offered, to answer, should be made out and furnished to the several Societies.

As these queries must necessarily involve a great variety of subjects (many of which subjects are necessarily modified in their character by circumstances and differences of location), the Secretary would feel grateful to the several committees, and to all others interested, for any hints, suggestions or advice which they may deem proper to give him.

Please direct your communications to Winthrop, Me.

Very respectfully yours, &c.
E. HOLMES,
Secretary M. S. Ag'l Society.

Winthrop, 10th April, 1855.

*By the act of incorporation every president of a county agricultural society is ex officio, vice president of the State Agricultural Society.

MINNESOTA.—A convention of the opponents of the national Administration recently assembled at St Anthony to organize a joint fusion party under the title of the Territorial Republican party of Minnesota. They adopted a series of excellent resolutions, in which they declare that the Constitution of the U. S. is a law of impartial liberty, and that until Congress abolished slavery in the District of Columbia and the Territories, it is false to its trust, and that the fugitive slave law is unconstitutional and should be repealed, reaffirming the ordinance of 1787. The resolutions also denounce the repeal of the Missouri Compromise as a violation of the plighted faith of the South, take grounds in favor of a prohibitory liquor law, call upon the national government to relieve itself of all responsibility for the existence of slavery, wherever it possesses the constitutional power to legislate for its extinction.—Among other planks in the platform they lay down is a "cordial welcome to emigrants and exiles from the old world; but no welcome to banished paupers and criminals, nor to those who plot the overthrow of the Republic."

THE NEW LIQUOR LAW.—Governor Gardner signed the new liquor bill yesterday, and the people will "govern themselves accordingly." It is understood that before giving vitality to the measure, he obtained an opinion of the Attorney General—endorsed by the Supreme Court of Massachusetts—to the effect that the act is constitutional. The law goes into effect in thirty days after its approval by the Governor.—*Boston Courier*, 21st.

Mrs. Alexander Hamilton once told a friend that she was the first person in the United States for whom ice cream was made. A famous cook from France came to see her to obtain employment and by way of showing her skill asked for some lemons, cream, ice and sugar, with which she made some delicious ice cream, which from that time became the fashion in New York for dessert and evening entertainments.

The latest plan for using up Sebastopol is this: the Dead Sea being several hundred feet lower than the Mediterranean and Black Seas, it is proposed to cut a canal into the former, which will save Sebastopol high and dry!—Copyright secured.

THE CONDUCT OF THE WAR. A correspondent of the New York Post gives the following specimen of the manner in which Mr. Roebuck's Committee prosecute their inquiry into the conduct of the war, and compel the delinquents to own up:

"Was to day at the Committee of Inquiry, Mr. Roebuck's committee. The proceedings are entirely public. To day two of the Crimean medical officers were on the rack and pretty disastrous they were forced to make, more to the edification of their hearers than to their own delight, or they proved themselves to have been guilty of the grossest negligence in their offices. One of them was the inspector of the hospitals at Scutari, whose duty it was to go about and see that everything connected with this department was in a proper state—and imagine this man saying that the hospitals were in cleanly condition, and writing to Lord Stratford de Redcliffe that they had everything needful for the comfort and sustenance of the patients, at the very time that the hospitals were in the most disgusting and filthy condition, and men dying in them of mere exhaustion. The committee pumped them both dry in a manner which was delightful. They both humm'd and haw'd, and tried to get out of the mud the best way they could, but little Roebuck put it to them in a way that they hadn't been accustomed to before, snubbing them at a most prodigious rate. 'Why can't you answer that question in a plain manner? Did you, or did you not?' 'No.' 'Well, then, say so at once.'"

ORNAMENTAL JUDGES.—Our Vermont and New Hampshire friends will take the sense of this. One was elected "side judge" in one of the county courts of Vermont. He was not very well versed in "legal lore," so he called on a friend of his to make some inquiries concerning the duties of the office. To his interrogatories, the reply was: "Sir, I have filled this important and honorable office several years, but have never been consulted with regard to but one question. On the last day of the spring term, 18—, the Judge, after listening to three or four windy pleas of an hour's length each, turned to me and whispered—'C., is n't this bench made of hard wood?' and I told him I rather thought it was."

BRUTE IN THE LONG. In Gaston, Virginia, on the 15th inst., a boy named Robert Frasier, ordered a negro lad to come and play with him, and as the negro did not immediately obey, he fired a gun at him, the charge of which took effect in his face, tearing part of his nose off, knocking out several teeth, and otherwise severely injuring him. The young murderer by intent, was arrested, but admitted to bail.

ARRIVAL OF THE

NASHVILLE

AT NEW YORK.

NEW YORK, April 22.

The mail steamship Nashville, specially chartered by the Collins Company for one trip to Liverpool, in place of the steamship Pacific, arrived at this port at about noon, to-day, and brings news of her own arrival at Liverpool, on the 3d instant, in about 12½ days. She left Liverpool, on her return trip, at 3 o'clock, P. M., the 7th inst. and brings London and Liverpool papers of the same date, together with fifty passengers, among whom we notice Mr. Ullman, who announces the engagement of Madam E. Lagrange Mirate and Marelli, who would leave Havre by the first steamer on the 9th.

Riots at Chicago.

CHICAGO, April 21st.

A serious riot occurred in this city this morning growing out of the Maine Law and License question, in which one man was killed and five or six others were wounded.

It appears that a small procession of intoxicated Germans and Irish marched with a drum to Court House Square and there collected a crowd.

The police interfered and a general fight ensued, when the rioters were dispersed.

In the evening the fight recommenced when a policeman was killed and several Germans wounded.

The military were called out and cannon planted in front of the court house which ended the riot.

The cause of the whole affair was an attempt to enforce the new License Law.

CHICAGO, April 23.

Numerous disturbances occurred yesterday, or this morning. The artillery and other military have been posted in front of the Court House since Saturday.

Yesterday, at 4 o'clock, P. M., an immense crowd collected in Clark street, between Washington and South Water streets, but shortly afterwards dispersed.

The total number of arrests are fifty-five.

The Irish have covered themselves with glory, by keeping from the affray.

The German who was shot by the policeman received a ball through the back, but is still living.

More trouble is apprehended when the examination of the prisoners takes place.

A special military force consisting of 400 citizens with the State arms has been organized.

The Know-Nothings in Massachusetts.

BOSTON, April 22.

The Know-Nothings of this State are about to publish an explanation of the objects and aims of their organization. It is said to be a document of much ability and has been fully endorsed by the leaders of the present dominant party.

The Crystal Palace—Brig Bainbridge.

NEW YORK, April 23d.

The Secretary of the Treasury has modified the notice given by Collector Redfield for the withdrawal of all goods from the Crystal Palace, extending the time from the first to the fifteenth of June, and fixing the regulation under which articles not dutiable may be withdrawn.

The U. S. Naval Brig Bainbridge, bound from Norfolk for Rio Janeiro, was spoke on 12th of March in lat 21 23 lon 53 51. All well.

Steamboat Burnt.

CINCINNATI, April 23d.

The steamer Wm. Knox from this place for St. Louis was destroyed this morning by fire near Flint Island, below Louisville. The boat was full of passengers for Kansas. It is probable that no lives were lost. A steamer came along at the time of the conflagration.

Fire.

NEW ORLEANS, April 18th.

Notice to Log Owners.

THE owners of Logs now in the Penobscot Boom, or expected to come into it this season, are requested to hand in their marks to the Treasurer, or to C. T. Ellis, at the boom house, immediately, as rafting will commence at once.—It is hoped that gentlemen will order their logs of different marks *rafted together* as much as possible, as it will increase the speed and diminish the cost of rafting. The number of marks run in the boom is so immense that if each mark is rafted by itself the process must be slow and the cost great. H. E. PRENTISS,

Radway's Regulators.

The Third Great Medical Discovery of Radway & Co.

ONE REGULATOR is sufficient to regulate the Bowels, Liver and Pancreas, to a healthy discharge of their functions.

Two will insure a pleasant discharge from the Bowels, at a regular [illegible] day.

Four to six will purge the bowels of all corrupt and acrimonious humors [illegible].

Important to Pill Takers.

Persons who are in the habit of taking pills will find RADWAY'S REGULATOR the most pleasant, safe and effectual regulator of the Bowels, Liver, Pancreas, and the most certain Purifier of the Blood now [illegible].

One of Radway's Regulators is superior, in point of medical strength and efficacy, to six of the most popular and best approved cathartic pills.

Radway's Regulators

Radway's Regulators are most carefully prepared from extracts and gums of trees, plants, roots and herbs. There are no pills in use that will act upon the Liver, Pancreas, Bowels, the Salivary Glands and Nerves, so pleasantly and effectually as the R. R. REGULATORS. No pills can be taken for any length of time with the same safety to the constitution; R., instead of debilitating the system by powerful and drastic purging, they act pleasantly upon the bowels, and impart strength to every nerve and tissue of the body.

Regulators vs. Pills.

We are continually asked, What is the difference between Radway's Regulators and ordinary pills?

We answer that pills, as they are ordinarily prepared and sold by different manufacturers, are generally of two kinds—those which operate on the bowels merely, called purgative pills, and those which excite the secretion of the liver, and are called mercurial or liver pills. Radway's Regulators resemble pills merely in shape, but differ in every other characteristic. They act not only on the bowels but on the liver, skin, pancreas, and kidneys, regulating each organ to a healthy action. They are not drastic, and never give pain as most purgative pills do; they stimulate the liver without endangering the patient with salivation, as mercurial pills do; containing no mineral in their composition, they are harmless when used for a length of time. They are tasteless, being enveloped in an elegant coating of gum. 1 to 3 regulate, 3 to 6 purge—good at all times.

As a Family Physic!

RADWAY'S REGULATORS are the most pleasant, safe, mild and pleasant pills in use. They are a quick and certain cure for Costiveness, Indigestion, Liver Complaint, Kidney Complaint, Jaundice, Head Aches, Nervousness, Melancholy, Diseases of the Bladder.

Female Complaints.

Leucorrhea, Fluor Albus, Whites and Irregularities of all kinds.

Billious Diseases,

Bile on the stomach, Billious Cholic, Enlargement of the Spleen, and all Chronic Affections of the Liver and Kidneys.

R. R. R. REMEDIES are sold by Druggists everywhere.

For great cures performed in a short time by R. R. Relief, see next week's paper. R. R. R. Remedies act quick—the moment they are taken or applied their health relieving efficacy is experienced.

DR. J. H. SCHENCK'S PULMONIC SYRUP, For the Cure of Consumption.

THE proprietor of this medicine was himself, many years ago, reduced so low as to be given up by his physicians and friends, in the last stage of Consumption. When all hopes of ever getting well had fled, he was strongly recommended to use a Syrup made from an old Indian receipt, which succeeded in effectually curing him. The Syrup's virtues and a large number of respectable patients certified to the facts in this case, and by the Pulmonic Syrup obtained a reputation unequalled in that section of the country. Curing, as this case did, a sensation second to that of a miracle, Dr. Schenck was waited upon by many similarly afflicted, to whom he administered the Syrup with the same beneficial results. In fact, such was the notoriety of this medicine, that eminent physicians had their attention drawn toward the rising reputation of it, from having witnessed its curative power, and freely extended the hand of friendship and encouragement to Dr. Schenck, and introduced the medicine to the public, and used it in their daily practice.

No other medicine operates upon the system like the manner that the Pulmonic Syrup does. It produces a healthy action upon the morbid parts, by soothing them from disease, it promotes the expectoration, allays the cough, it loosens the matter on the lungs, and when it is discharged, it heals the cavities that the breaking of the tubercles or abscess produces, and the lungs become sound and restored. The penetrating effect of this natural function, it absorbs all the irritated portion of the lungs, and other organs, and thus restores the organs to health. A superior property the medicine possesses over all others is, that it contains no opium, calomel or any other deleterious medicine.

In 1848 Dr. Schenck removed from Flemington, New Jersey, to Philadelphia, and commenced the practice of his profession, where he soon acquired a reputation unexcelled by none, in curing a disease that has heretofore been deemed incurable, and he has always been daily presented to the world incontestible evidence of the success.

Two of his parents died with Consumption, which is said to have been an hereditary disease with his father's family. All his brothers and sisters are of the mal family of the disease, none of them, but he one brother, reaching the age of twenty.

This left totally the last of his family, he naturally felt some alarm, as one after another were consigned to the silent tomb by this fell destroyer.

VOLUNTARY TESTIMONY.

We the subscribers, residents of Flemington, do hereby certify that we are well acquainted with Dr. J. H. Schenck. He was attacked by disease, which, as we believe, terminated in Pulmonary Consumption, under the operation of which he was reduced so low as to be unable to leave his bed for a great time, and to all appearance was past recovery. He is now perfectly well—his cough and fever in which he, and we feel justified in declaring that we believe that those salutary effects have resulted from the use of the Pulmonic Syrup.

The Most Successful Remedy.

REV. WALTER CLARKE'S

Great European Cough Remedy!
—OR—
Universal Cough Mixture,

IS unquestionably the best remedy for Coughs and Chronic Pulmonary diseases ever discovered. Read the following certificates, and remember they are all from persons of first rate respectability, and they all live in this State, and are willing to answer all enquiries addressed to them.—Read and judge for yourselves. They are selected from a multitude of others.

From Dr. John Brown, Liberty, Me.

DEAR SIR.—I have made use of your European Cough Remedy for a cough with which I have been afflicted for some time, to my entire satisfaction, and have also employed it in my practice with the happiest results, and am fully convinced that it is one of the best medicines in use for what it is recommended. JOHN BROWN, M. D.

Miss HUNNEWELL of Scarborough, had for two years and ten months been afflicted with a most distressing cough, with extreme pressure of the lungs, and other painful symptoms. During this time she had employed good physicians, and taken many of the popular advertised medicines without experiencing any permanent benefit. Many nights she was obliged to sit up for hours, not being able to breath lying down, and her friends despaired of her recovery. Last June she was induced to try Rev. W. Clarke's Great European Cough Remedy. A trial bottle, 25 cts., greatly relieved her, and encouraged her to try a large one, 75 cts., and to the astonishment of all who knew her, these two bottles without any other medicine whatever completely restored her to health, which she continues to enjoy.

Mr. and Mrs. Hunnewell hold themselves ready to answer all enquiries respecting the above extraordinary cure, and are satisfied that the European Cough Mixture is the best remedy known for Coughs and disorders of the Chest and Lungs, and as such they recommend it to the afflicted.

They also state that Mr. Watson, one of their neighbors, who was considered by his friends to be in consumption, was persuaded to try the European Cough Remedy, and the result was a rapid recovery.

Remarkable Cure of Asthma, with severe Cough, communicated by Mr. Brewster, Postmaster at Curtis' Corner, Aug 20th, 1853.—Rev. Walter Clarke—*Dear Sir*, Mr. Samuel Shaw, residing in Greene, Kennebec county, Me., has been afflicted with the Phthisic for a number of years. For the past winter he was so distressed for breath that he could not lay down. At last hearing of the European Cough Remedy, he sent for a bottle and commenced using it. He was greatly relieved by the first dose, and from that time he rested well at night. A few bottles completed the cure, and he now desires to recommend the medicine to others, as he is fully assured that it is worthy of the utmost confidence.

The following has just been received from John Dresser, Esq., agent for Paris, Me., dated Nov. 8, 1854.

Dear Sir.—You will recollect that when you were here I had a severe cough of three months standing; I had tried all the cough medicines I could obtain without any relief. Your medicine has cured it. It has also cured many of my neighbors. Please send me some more of the medicine immediately.

Yours, &c., JOHN DRESSER.

Rev. T. Oliver, West Waterville, testifies to the extraordinary cure of a lady, who, to all appearance, was in the last stage of consumption, so that it was thought he could live but a short time. A half a bottle cured her cough and she speedily recovered. Bro. Oliver states that he knows another person who a long time had been afflicted with the Phthisic, with severe cough, &c., who was completely cured by two bottles of the Universal Cough Mixture.

AGENCY FOR BUSINESS WITH U. S. PATENT OFFICE, WASHINGTON.

No. 76 State Street, opposite Kilby St., BOSTON.

IMPORTANT INFORMATION to Inventors.—The subscriber, (late Agent of the U. S. STARTLING, BUT TRUE!
WHAT EVERY WOMAN SHOULD KNOW.

How often it happens, that the wife lingers, from year to year in that pitiable condition as not even for one day to feel the happy and exhilarating influence incident to the enjoyment of health.

THE BLOOMING BRIDE,

But a few years ago in the flush of health and youth, and buoyancy of spirits rapidly, and apparently inexplicably, becomes a feeble, sickly, sallow, debilitated wife, with frame emaciated, nerves unstrung, spirits depressed, countenance bearing the impress of suffering, and an utter physical and mental prostration, arising from ignorance of the simplest and plainest rules of health as connected with the marriage state, the violation of which entails disease, suffering and misery, not only to the wife, but often

attesting the high estimation in which it is held as a reliable popular Medical

BOOK FOR EVERY FEMALE

the author having devoted his exclusive attention to the treatment of complaints peculiar to females, in respect to which he is yearly consulted by thousands both in person and by letter.

Here every woman can discover, by comparing her own symptoms with those described, the nature, character, causes of, and the proper remedies for, her complaints.

The wife about becoming a mother has often need of instruction and advice of the utmost importance to her future health, in respect to which her sensitiveness forbids consulting a medical gentleman, will find such instruction and advice, and also explain many symptoms which otherwise would occasion anxiety or alarm, as all the peculiarities incident to her situation are described.

How many are suffering from obstructions or irregularities peculiar to the female system, which undermine the health, the effects of which they are ignorant and for which their delicacy forbids seeking medical advice. Many suffer from prolapsus uteri (falling of the womb), or from fluor albus (weakness, debility, &c.). Many are in constant agony for many months preceding confinement. Many have difficult if not dangerous deliveries, and slow and uncertain recoveries. Some whose lives are hazarded during such time, will each find in its pages the means of prevention, amelioration and relief.

It is of course impracticable to convey fully the various subjects treated of, as they are of a nature strictly intended for the married or those contemplating marriage.

Reader, are you a husband or a father? a wife or a mother? Have you the sincere welfare of those you love at heart? Prove your sincerity, and lose no time in learning what causes interfere with their health and happiness no less than your own. It will avoid to you and yours, as it has to thousands, many a day of pain and anxiety, followed by sleepless nights incapacitating the mind for its ordinary avocation, and exhausting those means for medical attendance, medicines and advertised nostrums which otherwise would provide for declining years, the infirmities of age and the proper education of your children.

In consequence of the universal popularity of the work, as evidence by its extraordinary sale, various impositions have been attempted, as well on booksellers as on the public, by imitations of title page, spurious editions, and surreptitious infringements of copyright, and other devices and deceptions, it has been found necessary, therefore, to

CAUTION THE PUBLIC

to buy no book unless the words "Dr. A. M. Mauriceau, 129 Liberty Street, N. Y.," is on (and the entry in the Clerk's Office on the back of) the title page; and buy only of respectable and honorable dealers, or send by mail, and address to Dr. A. M. Mauriceau.

Upon receipt of One Dollar "THE MARRIED WOMAN'S PRIVATE MEDICAL COMPANION" is sent (mailed free) to any part of the United States, the Canadas and British Provinces. All letters must be post-paid, and addressed to Dr. A. M. MAURICEAU, box 1224, New-York City. Publishing Office, No. 129 Liberty Street, New-York.
